

Pawned Property Module

Police Central now provides an integrated module for **managing PawnedProperty** information. Too often Pawned Property Tickets are based on a paper form that is mailed to the local Agency - and too often they are not used and valuable Law Enforcement Information may be lost or overlooked. Using Police Central's **exclusive web-technology**, the Agency may use the Module for **in-house ticket entry**; or it may be deployed via a **secure internet connection** to all regulated Pawn Shops. By using the Internet, **the pawn shop operator enters** all information thus **completely eliminating** the need for **re-entry** at the Agency. The Pawn Property Module is fully integrated into other Police Central Modules and will **automatically check property** against the Stolen Property List, and **automatically check the person** for Outstanding Warrants or Unserved Civil Papers. Police Central controls all security ensuring that the Pawn Shop has access only to their information.

Customer Biographical Information

Complete **biographical information** is entered pertaining to the person who is pawning the property. Full Name, Address, Phone Numbers, SSN, DLN, and other relevant data is simply keyed into the Personal Information Section. The Responsible Agency may require **mandatory or optional entries**. If desired, the Pawn Shop may take digital **photographs**, or a **single fingerprint** for customer identification purposes.

Pawn Shop and Pawned Items Information

Each Pawn Ticket is assigned to a specific Pawn Shop. **Any number of pawned items** may be attached to the record. Each type of property will request relevant data to be supplied, including Make, Model, Serial Number, VIN, or other **descriptors that apply to that type of property**. Value and Pawned Value may be tracked, along with transaction date and expiration date. The system can produce **daily transaction lists** for both the Agency or the Pawn Shop for administrative purposes. Even **photographs of high value items** may be attached to the record!

#	Property Type	Ticket Num...	Pawn Date	Default	Pawn Am...	Description	Pawned Property
001	Jewelry	15477	11/19/2002		\$45.00	RED SCHWIZ 26 INC...	1
002	Jewelry/Precious ...	15477	11/19/2002		\$25.00	GOLD RING	2

Integration with Other Police Central Modules

When the Pawn Ticket is entered into the system, the person and property is **automatically checked in other Police Central Modules**. If Police Central Warrants and Civil Process Modules are in use, the system will check for **Outstanding Warrants** and **Unserved Papers** and notify the responsible department. If the Police Central Incident Reporting Module is used, the Pawned Items will be checked against the **Stolen Property List** and **notification** will be provided to the proper department. The system is fully searchable, so all information can be used for criminal investigations.

Other Integrated Police Central Modules...

- Criminal Warrants
- Incident Reports
- Administrative Reports
- Staff & Employee
- Field Interviews
- Crime Scene
- Arrest & Booking
- Civil Papers
- UCR & NIBRS Reporting
- Gun Permits
- Facial Recognition
- Citations
- Jail Management
- ...and many **MORE**
